## Septin 5 Protein (SEPT5) (His tag)

[Go to Product page](#)

### Overview

|                               |                                                 |
|-------------------------------|-------------------------------------------------|
| Quantity:                     | 100 µg                                          |
| Target:                       | Septin 5 (SEPT5)                                |
| Origin:                       | Human                                           |
| Source:                       | Escherichia coli (E. coli)                      |
| Protein Type:                 | Recombinant                                     |
| Purification tag / Conjugate: | This Septin 5 protein is labelled with His tag. |
| Application:                  | Western Blotting (WB), SDS-PAGE (SDS), ELISA    |

### Product Details

|           |                                  |
|-----------|----------------------------------|
| Purpose:  | Recombinant Human SEPTIN5, N-His |
| Sequence: | Ser77-Ser323                     |

### Target Details

|                   |                                                                                                            |
|-------------------|------------------------------------------------------------------------------------------------------------|
| Target:           | Septin 5 (SEPT5)                                                                                           |
| Alternative Name: | SEPTIN5 ( <a href="#">SEPT5 Products</a> )                                                                 |
| Background:       | PNUTL1, CDCrel-1, Septin-5, Peanut-like protein 1, Cell division control-related protein 1, SEPT5, SEPTIN5 |
| Molecular Weight: | 30.95 kDa                                                                                                  |
| UniProt:          | <a href="#">Q99719</a>                                                                                     |
| Pathways:         | <a href="#">Synaptic Vesicle Exocytosis</a>                                                                |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Lyophilized

---

Reconstitution: Reconstitute in sterile water for a stock solution.

---

Buffer: Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.

---

Storage: 4 °C,-20 °C,-80 °C

---

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt.
