

## Datasheet for ABIN7579457 **SFRP2 Protein (His tag)**

[Go to Product page](#)

### Overview

|                               |                                              |
|-------------------------------|----------------------------------------------|
| Quantity:                     | 100 µg                                       |
| Target:                       | SFRP2                                        |
| Origin:                       | Human                                        |
| Source:                       | Mammalian Cells                              |
| Protein Type:                 | Recombinant                                  |
| Purification tag / Conjugate: | This SFRP2 protein is labelled with His tag. |
| Application:                  | SDS-PAGE (SDS), Western Blotting (WB), ELISA |

### Product Details

|           |                                        |
|-----------|----------------------------------------|
| Purpose:  | Recombinant Human SFRP2 Protein, C-His |
| Sequence: | Met1-Cys295                            |

### Target Details

|                   |                                                                                                                                                           |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | SFRP2                                                                                                                                                     |
| Alternative Name: | SFRP2 ( <a href="#">SFRP2 Products</a> )                                                                                                                  |
| Background:       | Secreted frizzled-related protein 2, FRP-2, sFRP-2, Secreted apoptosis-related protein 1, SARP-1, SFRP2, FRP2, SARP1, FKSG12, UNQ361/PRO697               |
| Molecular Weight: | 34.47 kDa                                                                                                                                                 |
| UniProt:          | <a href="#">Q96HF1</a>                                                                                                                                    |
| Pathways:         | <a href="#">WNT Signaling</a> , <a href="#">Tube Formation</a> , <a href="#">Positive Regulation of Endopeptidase Activity</a> , <a href="#">Negative</a> |

## Target Details

Regulation of intrinsic apoptotic Signaling, Positive Regulation of fat Cell Differentiation

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                  |                                                                                                                                                                 |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                     |
| Reconstitution:  | Reconstitute in sterile water for a stock solution.                                                                                                             |
| Buffer:          | Lyophilized from a solution in PBS pH 7.4, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.                                                                              |
| Storage:         | 4 °C,-20 °C                                                                                                                                                     |
| Storage Comment: | Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 °C for twelve months from the date of receipt. |
