## Sorting Nexin 3 Protein (SNX3) (His tag)

[Go to Product page](#)

### Overview

|                               |                                                        |
|-------------------------------|--------------------------------------------------------|
| Quantity:                     | 100 µg                                                 |
| Target:                       | Sorting Nexin 3 (SNX3)                                 |
| Origin:                       | Human                                                  |
| Source:                       | Escherichia coli (E. coli)                             |
| Protein Type:                 | Recombinant                                            |
| Purification tag / Conjugate: | This Sorting Nexin 3 protein is labelled with His tag. |
| Application:                  | ELISA, SDS-PAGE (SDS), Western Blotting (WB)           |

### Product Details

|           |                                       |
|-----------|---------------------------------------|
| Purpose:  | Recombinant Human SNX3 Protein, C-His |
| Sequence: | Met1-Ala162                           |

### Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | Sorting Nexin 3 (SNX3)                 |
| Alternative Name: | SNX3 ( <a href="#">SNX3 Products</a> ) |
| Background:       | SNX3, Protein SDP3, Sorting nexin-3    |
| Molecular Weight: | 19.58 kDa                              |
| UniProt:          | <a href="#">O60493</a>                 |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|         |             |
|---------|-------------|
| Format: | Lyophilized |
|---------|-------------|

|                 |                                                     |
|-----------------|-----------------------------------------------------|
| Reconstitution: | Reconstitute in sterile water for a stock solution. |
|-----------------|-----------------------------------------------------|

|         |                                                                                                |
|---------|------------------------------------------------------------------------------------------------|
| Buffer: | Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol. |
|---------|------------------------------------------------------------------------------------------------|

|          |             |
|----------|-------------|
| Storage: | 4 °C,-20 °C |
|----------|-------------|

|                  |                                                                                                                                                                   |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage Comment: | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 °C for one week . Store at -20 °C for twelve months from the date of receipt. |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
