## Overview

|                               |                                              |
|-------------------------------|----------------------------------------------|
| Quantity:                     | 100 µg                                       |
| Target:                       | USP25                                        |
| Origin:                       | Human                                        |
| Source:                       | Escherichia coli (E. coli)                   |
| Protein Type:                 | Recombinant                                  |
| Purification tag / Conjugate: | This USP25 protein is labelled with His tag. |
| Application:                  | ELISA, Western Blotting (WB), SDS-PAGE (SDS) |

## Product Details

|           |                                        |
|-----------|----------------------------------------|
| Purpose:  | Recombinant Human USP25 Protein, N-His |
| Sequence: | Glu862-Arg1055                         |

## Target Details

|                   |                                                                                                                                                                                |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | USP25                                                                                                                                                                          |
| Alternative Name: | USP25 ( <a href="#">USP25 Products</a> )                                                                                                                                       |
| Background:       | Ubiquitin-specific-processing protease 25, Ubiquitin thioesterase 25, USP21, USP on chromosome 21, Ubiquitin carboxyl-terminal hydrolase 25, Deubiquitinating enzyme 25, USP25 |
| Molecular Weight: | 25.44 kDa                                                                                                                                                                      |
| UniProt:          | <a href="#">Q9UHP3</a>                                                                                                                                                         |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Lyophilized

---

Reconstitution: Reconstitute in sterile water for a stock solution.

---

Buffer: Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.

---

Storage: 4 °C,-20 °C

---

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 °C for twelve months from the date of receipt.
