## Overview

|                               |                                              |
|-------------------------------|----------------------------------------------|
| Quantity:                     | 100 µg                                       |
| Target:                       | IL-5 (IL5)                                   |
| Origin:                       | Mouse                                        |
| Source:                       | Escherichia coli (E. coli)                   |
| Protein Type:                 | Recombinant                                  |
| Purification tag / Conjugate: | This IL-5 protein is labelled with His tag.  |
| Application:                  | Western Blotting (WB), SDS-PAGE (SDS), ELISA |

## Product Details

|           |                              |
|-----------|------------------------------|
| Purpose:  | Recombinant Mouse IL5, N-His |
| Sequence: | Met21-Gly133                 |

## Target Details

|                   |                                                                                                                                                                                                                 |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | IL-5 (IL5)                                                                                                                                                                                                      |
| Alternative Name: | IL5 ( <a href="#">IL5 Products</a> )                                                                                                                                                                            |
| Background:       | IL15, IL-15, Interleukin-15                                                                                                                                                                                     |
| Molecular Weight: | 15.44 kDa                                                                                                                                                                                                       |
| UniProt:          | <a href="#">P04401</a>                                                                                                                                                                                          |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Lyophilized

---

Reconstitution: Reconstitute in sterile water for a stock solution.

---

Buffer: Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.

---

Storage: 4 °C,-20 °C,-80 °C

---

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt.
