

Datasheet for ABIN7580838  
**SPON1 Protein (His tag)**

[Go to Product page](#)

## Overview

|                               |                                              |
|-------------------------------|----------------------------------------------|
| Quantity:                     | 100 µg                                       |
| Target:                       | SPON1                                        |
| Origin:                       | Mouse                                        |
| Source:                       | Escherichia coli (E. coli)                   |
| Protein Type:                 | Recombinant                                  |
| Purification tag / Conjugate: | This SPON1 protein is labelled with His tag. |
| Application:                  | SDS-PAGE (SDS), Western Blotting (WB), ELISA |

## Product Details

|           |                                        |
|-----------|----------------------------------------|
| Purpose:  | Recombinant Mouse SPON1 Protein, N-His |
| Sequence: | Ala597-Ala801                          |

## Target Details

|                   |                                                                                                   |
|-------------------|---------------------------------------------------------------------------------------------------|
| Target:           | SPON1                                                                                             |
| Alternative Name: | SPON1 ( <a href="#">SPON1 Products</a> )                                                          |
| Target Type:      | Viral Protein                                                                                     |
| Background:       | SPON1, KIAA0762, Spondin-1, F-spondin, Vascular smooth muscle cell growth-promoting factor, VSGP, |
| Molecular Weight: | 26 kDa                                                                                            |
| UniProt:          | <a href="#">Q8VCC9</a>                                                                            |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                  |                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                            |
| Reconstitution:  | Reconstitute in sterile water for a stock solution.                                                                                                                    |
| Buffer:          | Lyophilized from a solution in PBS pH 7.4, 0.02 % NLS, 1 mM EDTA, 4 % Trehalose, 1 % Mannitol.                                                                         |
| Storage:         | 4 °C,-20 °C,-80 °C                                                                                                                                                     |
| Storage Comment: | Use a manual defrost freezer and avoid repeated freeze thaw cycles.Store at 2 to 8 °C for one week .Store at -20 to -80 °C for twelve months from the date of receipt. |
