

Datasheet for ABIN7581762

100X Coating Buffer

[Go to Product page](#)

Overview

Quantity:	2 mL
Application:	Coating (Coat), ELISA

Product Details

Purpose:	Polymerized Streptavidin Buffer for Coating Applications
Components:	Bottle of Coating Buffer

Application Details

Application Notes:	Must be diluted to 1X concentration in DI water
Comment:	This Coating Buffer works best with the polymerized Streptavidin optimized for coating ELISA plates (ABIN7581761).
Restrictions:	For Research Use only

Handling

Format:	Liquid
Concentration:	100 X
Storage:	RT
Storage Comment:	Room Temperature
