

# Datasheet for ABIN7583461

# Annexin A3 Protein (ANXA3) (AA 1-324) (His tag)

#### Overview

Quantity:	100 μg
Target:	Annexin A3 (ANXA3)
Protein Characteristics:	AA 1-324
Origin:	Rat
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This Annexin A3 protein is labelled with His tag.
Application:	ELISA
Product Details	
Sequence:	MAASLWVGPR GTINNYPGFN PSVDAEAIRK AIKGIGTDEK TLINILTERS NAQRQLIVKQ

## **Target Details**

Target:	Annexin A3 (ANXA3)
Abstract:	ANXA3 Products
Background:	Recommended name: Annexin A3.  Alternative name(s): 35-alpha calcimedin Annexin III Annexin-3 Lipocortin III Placental anticoagulant protein III.  Short name= PAP-III
UniProt:	P14669

#### **Application Details**

#### Comment:

The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.

Restrictions:

For Research Use only

## Handling

Format:	Lyophilized
Concentration:	0.2-2 mg/mL
Buffer:	Tris-based buffer, 50 % glycerol
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week
Storage:	-20 °C
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
