## Retinoid X Receptor gamma Protein (AA 1-463) (His tag)

[Go to Product page](#)

### Overview

Quantity:	100 µg
Target:	Retinoid X Receptor gamma (RXRG)
Protein Characteristics:	AA 1-463
Origin:	Cow
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This Retinoid X Receptor gamma protein is labelled with His tag.
Application:	ELISA

Purity: > 90 %

## Target Details

---

Target: Retinoid X Receptor gamma (RXRG)

Alternative Name: Retinoic acid receptor RXR-gamma (RXRG) ([RXRG Products](#))

Background: Recommended name: Retinoic acid receptor RXR-gamma.  
Alternative name(s): Nuclear receptor subfamily 2 group B member 3 Retinoid X receptor gamma

UniProt: [Q0VC20](#)

Pathways: [Nuclear Receptor Transcription Pathway](#), [Retinoic Acid Receptor Signaling Pathway](#), [Steroid Hormone Mediated Signaling Pathway](#)

## Application Details

Comment: The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modified such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.

Restrictions: For Research Use only

## Handling

---

Format: Lyophilized

Concentration: 0.2-2 mg/mL

Buffer: Tris-based buffer, 50 % glycerol

Handling Advice: Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week

## Handling

---

Storage: -20 °C

---

Storage Comment: Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
