

Datasheet for ABIN7588248 **A1BG Protein (AA 22-503) (His tag)**

Overview

Quantity:	100 μg
Target:	A1BG
Protein Characteristics:	AA 22-503
Origin:	Cow
Source:	Yeast
Protein Type:	Recombinant
Purification tag / Conjugate:	This A1BG protein is labelled with His tag.
Application:	ELISA

Product Details	
Sequence:	ATFFDPRPS LWAEAGSPLA PWADVTLTCQ SPLPTQEFQL LKDGVGQEPV HLESPAHEHR
	FPLGPVTSTT RGLYRCSYKG NNDWISPSNL VEVTGAEPLP APSISTSPVS WITPGLNTTL

	LLLRAGEEEP LAVAWSTHGP ADLVLTSVGP QHAGTYSCRY RTGGPRSLLS ELSDPVELRV AGS
Specificity:	Bos taurus (Bovine)
Characteristics:	Please inquire if you are interested in this recombinant protein expressed in E. coli, mammalien cells or by baculovirus infection. Be aware about differences in price and lead time.

Product Details > 90 % Purity: **Target Details** Target: A1BG Alternative Name Alpha-1B-glycoprotein (A1BG) (A1BG Products) Background: Recommended name: Alpha-1B-glycoprotein. Alternative name(s): Alpha-1-B glycoprotein UniProt: Q2KJF1 **Application Details** The yeast protein expression system is the most economical and efficient eukaryotic system Comment: for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies. Restrictions: For Research Use only Handling Format: Lyophilized Concentration: 0.2-2 mg/mL Buffer: Tris-based buffer, 50 % glycerol Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to Handling Advice: one week

Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.

Storage:

Storage Comment:

-20 °C
