

# Datasheet for ABIN7590894 **DNTTIP1 Protein (AA 1-327) (His tag)**

Go to Product page

_					
	W	0	rv	10	W

Quantity:	100 μg	
Target:	DNTTIP1	
Protein Characteristics:	AA 1-327	
Origin:	Rat	
Source:	Yeast	
Protein Type:	Recombinant	
Purification tag / Conjugate:	This DNTTIP1 protein is labelled with His tag.	
Application:	ELISA	
Product Details		
Sequence:	MGATGDTGGP RPGTESRRPG NVGNAGAAGQ PVLTNPWNIM IKPRQVQRRG RRSQMTTSFT

## **Target Details**

Target:	DNTTIP1	
Alternative Name:	Deoxynucleotidyltransferase terminal-interacting protein 1 (Dnttip1) (DNTTIP1 Products)	
Background:	Recommended name: Deoxynucleotidyltransferase terminal-interacting protein 1.  Alternative name(s): Terminal deoxynucleotidyltransferase-interacting factor 1.  Short name= TdIF1.  Short name= TdT-interacting factor 1	
UniProt:	Q91Y53	

### **Application Details**

#### Comment:

The yeast protein expression system is the most economical and efficient eukaryotic system for secretion and intracellular expression. A protein expressed by the mammalian cell system is of very high-quality and close to the natural protein. But the low expression level, the high cost of medium and the culture conditions restrict the promotion of mammalian cell expression systems. The yeast protein expression system serve as a eukaryotic system integrate the advantages of the mammalian cell expression system. A protein expressed by yeast system could be modificated such as glycosylation, acylation, phosphorylation and so on to ensure the native protein conformation. It can be used to produce protein material with high added value that is very close to the natural protein. Our proteins produced by yeast expression system has been used as raw materials for downstream preparation of monoclonal antibodies.

Restrictions:

For Research Use only

#### Handling

Format:	Lyophilized	
Concentration:	0.2-2 mg/mL	
Buffer:	Tris-based buffer, 50 % glycerol	
Handling Advice:	Repeated freezing and thawing is not recommended. Store working aliquots at 4 °C for up to one week	
Storage:	-20 °C	
Storage Comment:	Store at -20 °C, for extended storage, conserve at -20 °C or -80 °C.
