

## Datasheet for ABIN7603487 **anti-Aquaporin 8 antibody**

[Go to Product page](#)

### Overview

|              |                                            |
|--------------|--------------------------------------------|
| Quantity:    | 200 µL                                     |
| Target:      | Aquaporin 8 (AQP8)                         |
| Reactivity:  | Zebrafish (Danio rerio)                    |
| Host:        | Rabbit                                     |
| Clonality:   | Polyclonal                                 |
| Conjugate:   | This Aquaporin 8 antibody is un-conjugated |
| Application: | Immunohistochemistry (IHC)                 |

### Product Details

|                  |                                                                                                   |
|------------------|---------------------------------------------------------------------------------------------------|
| Purpose:         | Anti-Danio rerio (Zebrafish) aqp8a.1 Antibody                                                     |
| Isotype:         | IgG                                                                                               |
| Characteristics: | Anti-Danio rerio (Zebrafish) aqp8a.1 Antibody (ABIN7603487). This antibody reacts with Zebrafish. |
| Purification:    | Immunogen affinity purified.                                                                      |

### Target Details

|                   |                                           |
|-------------------|-------------------------------------------|
| Target:           | Aquaporin 8 (AQP8)                        |
| Alternative Name: | aqp8a.1 ( <a href="#">AQP8 Products</a> ) |
| UniProt:          | <a href="#">Q66I64</a>                    |

# Application Details

|                    |                                                            |
|--------------------|------------------------------------------------------------|
| Application Notes: | Immunohistochemistry(Paraffin-embedded Section), 2-5 µg/mL |
| Restrictions:      | For Research Use only                                      |

# Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 500 µg/mL                                                                                                              |
| Buffer:            | Each vial contains 20 mM PBS, 50 % glycerol, 0.02 % NaN3.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C,-20 °C                                                                                                            |
| Storage Comment:   | At -20°C for one year, at 4°C for one month. Avoid repeated freezing and thawing.                                      |
