

Datasheet for ABIN7603690

**anti-Choline Acetyltransferase antibody**[Go to Product page](#)

## Overview

|             |                                  |
|-------------|----------------------------------|
| Quantity:   | 200 µL                           |
| Target:     | Choline Acetyltransferase (CHAT) |
| Reactivity: | Zebrafish (Danio rerio)          |
| Host:       | Rabbit                           |
| Clonality:  | Polyclonal                       |

## Product Details

|                  |                                                                         |
|------------------|-------------------------------------------------------------------------|
| Purpose:         | Anti-Zebrafish chata Antibody                                           |
| Isotype:         | IgG                                                                     |
| Characteristics: | Anti-chata Antibody (ABIN7603690). This antibody reacts with Zebrafish. |
| Purification:    | Immunogen affinity purified.                                            |

## Target Details

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Target:           | Choline Acetyltransferase (CHAT)                  |
| Alternative Name: | chat                                              |
| Pathways:         | <a href="#">Skeletal Muscle Fiber Development</a> |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 500 µg/mL                                                                                                              |
| Buffer:            | Each vial contains 20 mM PBS, 50 % glycerol, 0.02 % Sodium azide.                                                      |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C,-20 °C                                                                                                            |
| Storage Comment:   | At -20°C for one year, at 4°C for one month. Avoid repeated freezing and thawing.                                      |
