

## Datasheet for ABIN7604859 **anti-ALOX5AP antibody**

[Go to Product page](#)

### Overview

|              |                                        |
|--------------|----------------------------------------|
| Quantity:    | 100 µL                                 |
| Target:      | ALOX5AP                                |
| Reactivity:  | Human                                  |
| Host:        | Rabbit                                 |
| Clonality:   | Monoclonal                             |
| Conjugate:   | This ALOX5AP antibody is un-conjugated |
| Application: | Western Blotting (WB)                  |

### Product Details

|                  |                                                                                                                |
|------------------|----------------------------------------------------------------------------------------------------------------|
| Purpose:         | Anti-FLAP Rabbit Monoclonal Antibody                                                                           |
| Immunogen:       | A synthesized peptide derived from human FLAP                                                                  |
| Clone:           | 24A38                                                                                                          |
| Isotype:         | IgG                                                                                                            |
| Characteristics: | Anti-FLAP Rabbit Monoclonal Antibody (ABIN7604859). Tested in WB application. This antibody reacts with Human. |
| Purification:    | Affinity-chromatography                                                                                        |

### Target Details

|                   |                                              |
|-------------------|----------------------------------------------|
| Target:           | ALOX5AP                                      |
| Alternative Name: | ALOX5AP ( <a href="#">ALOX5AP Products</a> ) |

## Target Details

|             |                                                                                                                       |
|-------------|-----------------------------------------------------------------------------------------------------------------------|
| Background: | Synonyms: Vesicle-associated membrane protein 8 ,VAMP-8 ,Endobrevin ,EDB ,VAMP8 ,<br>Tissue Specificity: Platelets. . |
|-------------|-----------------------------------------------------------------------------------------------------------------------|

|                   |        |
|-------------------|--------|
| Molecular Weight: | 16 kDa |
|-------------------|--------|

|          |                        |
|----------|------------------------|
| UniProt: | <a href="#">P20292</a> |
|----------|------------------------|

## Application Details

|                    |                 |
|--------------------|-----------------|
| Application Notes: | WB 1:500-1:2000 |
|--------------------|-----------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

|         |        |
|---------|--------|
| Format: | Liquid |
|---------|--------|

|                 |                                                                                  |
|-----------------|----------------------------------------------------------------------------------|
| Reconstitution: | Restore with deionized water (or equivalent) for reconstitution volume of 1.0 mL |
|-----------------|----------------------------------------------------------------------------------|

|                |              |
|----------------|--------------|
| Concentration: | Lot specific |
|----------------|--------------|

|         |                                                                                                                         |
|---------|-------------------------------------------------------------------------------------------------------------------------|
| Buffer: | Rabbit IgG in phosphate buffered saline, pH 7.4, 150 mM NaCl, 0.02 % sodium azide and 50 % glycerol, 0.4-0.5 mg/mL BSA. |
|---------|-------------------------------------------------------------------------------------------------------------------------|

|               |              |
|---------------|--------------|
| Preservative: | Sodium azide |
|---------------|--------------|

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
|--------------------|------------------------------------------------------------------------------------------------------------------------|

|          |              |
|----------|--------------|
| Storage: | 4 °C, -20 °C |
|----------|--------------|

|                  |                                                                                                                                            |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Storage Comment: | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles. |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
