#### Overview

|                |                                              |
|----------------|----------------------------------------------|
| Quantity:      | 100 µL                                       |
| Target:        | ARF5                                         |
| Reactivity:    | Human, Mouse, Rat                            |
| Host:          | Rabbit                                       |
| Antibody Type: | Recombinant Antibody                         |
| Clonality:     | Monoclonal                                   |
| Conjugate:     | This ARF5 antibody is un-conjugated          |
| Application:   | Western Blotting (WB), Flow Cytometry (FACS) |

#### Product Details

|               |                                                       |
|---------------|-------------------------------------------------------|
| Purpose:      | ARF5 Rabbit mAb                                       |
| Immunogen:    | A synthesized peptide derived from human ARF5         |
| Isotype:      | IgG                                                   |
| Specificity:  | ARF5 Antibody detects endogenous levels of total ARF5 |
| Purification: | Affinity-chromatography                               |
| Grade:        | KD Validated                                          |

#### Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | ARF5                                   |
| Alternative Name: | ARF5 ( <a href="#">ARF5 Products</a> ) |

## Target Details

|                   |                                  |
|-------------------|----------------------------------|
| Background:       | ADP ribosylation factor 5, Arf5, |
| Molecular Weight: | 18kDa                            |
| UniProt:          | <a href="#">P84085</a>           |

## Application Details

|                    |                         |
|--------------------|-------------------------|
| Application Notes: | WB:1:500~1:2000 FC:1:50 |
| Restrictions:      | For Research Use only   |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Buffer:            | phosphate buffered saline , pH 7.4, 150 mM NaCl, 0.02 % sodium azide and 50 % glycerol.                                |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C,-20 °C                                                                                                            |
| Storage Comment:   | Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.                                         |
