**Recombinant anti-BRMS1 antibody**[Go to Product page](#)**2** Images

## Overview

|                |                                                                                                                                    |
|----------------|------------------------------------------------------------------------------------------------------------------------------------|
| Quantity:      | 100 µL                                                                                                                             |
| Target:        | BRMS1                                                                                                                              |
| Reactivity:    | Human                                                                                                                              |
| Host:          | Rabbit                                                                                                                             |
| Antibody Type: | Recombinant Antibody                                                                                                               |
| Clonality:     | Monoclonal                                                                                                                         |
| Conjugate:     | This BRMS1 antibody is un-conjugated                                                                                               |
| Application:   | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunofluorescence (IF), Immunocytochemistry (ICC) |

## Product Details

|               |                                                         |
|---------------|---------------------------------------------------------|
| Purpose:      | BRMS1 Rabbit mAb                                        |
| Immunogen:    | A synthesized peptide derived from human BRMS1          |
| Isotype:      | IgG                                                     |
| Specificity:  | BRMS1 Antibody detects endogenous levels of total BRMS1 |
| Purification: | Affinity-chromatography                                 |
| Grade:        | KD Validated                                            |

## Target Details

|         |       |
|---------|-------|
| Target: | BRMS1 |
|---------|-------|

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Alternative Name: | BRMS1 ( <a href="#">BRMS1 Products</a> ) |
| Background:       | BRMS1,                                   |
| Molecular Weight: | 28kDa                                    |
| UniProt:          | <a href="#">Q9HCU9</a>                   |

## Application Details

|                    |                                                          |
|--------------------|----------------------------------------------------------|
| Application Notes: | WB:1:500~1:2000 IHC:1:50~1:200 ICC/IF:1:50~1:200 IP:1:50 |
| Restrictions:      | For Research Use only                                    |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Buffer:            | phosphate buffered saline , pH 7.4, 150 mM NaCl, 0.02 % sodium azide and 50 % glycerol.                                |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C,-20 °C                                                                                                            |
| Storage Comment:   | Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.                                         |

## Images

### Western Blotting

**Image 1.** All lanes use the Antibody at 1:1K dilution for 1 hour at room temperature.

Western Blotting

**Image 2.** Western blot analysis of BRMS1 expression in HeLa cell lysate.
