## IL17 Receptor B Protein (AA 18-289) (His-Fc tag)

[Go to Product page](#)

### Overview

|                               |                                                                                     |
|-------------------------------|-------------------------------------------------------------------------------------|
| Quantity:                     | 50 µg                                                                               |
| Target:                       | IL17 Receptor B (IL17RB)                                                            |
| Protein Characteristics:      | AA 18-289                                                                           |
| Origin:                       | Human                                                                               |
| Source:                       | Mammalian Cells                                                                     |
| Protein Type:                 | Recombinant                                                                         |
| Biological Activity:          | Active                                                                              |
| Purification tag / Conjugate: | This IL17 Receptor B protein is labelled with His-Fc tag.                           |
| Application:                  | SDS-PAGE (SDS), Western Blotting (WB), Immunogen (Imm), ELISA, Activity Assay (AcA) |

### Product Details

|                              |                                                                                 |
|------------------------------|---------------------------------------------------------------------------------|
| Purpose:                     | Recombinant Human IL17RB Protein, C-hFc-His (Active)                            |
| Purity:                      | >90 % as determined by SDS-PAGE.                                                |
| Endotoxin Level:             | <0.1 EU/µg of the protein by the LAL method.                                    |
| Biological Activity Comment: | Measured by its ability to bind recombinant human IL-17E in a functional ELISA. |

### Target Details

|                   |                                                                                             |
|-------------------|---------------------------------------------------------------------------------------------|
| Target:           | IL17 Receptor B (IL17RB)                                                                    |
| Alternative Name: | IL-17B receptor ( <a href="#">IL17RB Products</a> )                                         |
| Background:       | IL-17B receptor, CRL4, IL17RB, Cytokine receptor-like 4, IL-17RB, IL17BR, IL-17 receptor B, |

## Target Details

Interleukin-17B receptor, EVI27, Interleukin-17 receptor B, IL17Rh1, IL-17Rh1, IL-17 receptor homolog 1

UniProt: [Q9NRM6](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Lyophilized

Buffer: Lyophilized from a solution in PBS pH 7.4, 5 % Trehalose, 5 % Mannitol.

Storage: 4 °C, -20 °C, -80 °C

Storage Comment: Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8°C for one week. Store at -20 to -80°C for twelve months from the date of receipt.

Expiry Date: 12 months
