## anti-CD22 (Pinatuzumab Biosimilar) antibody (Biotin)

[Go to Product page](#)

### Overview

|              |                                                                     |
|--------------|---------------------------------------------------------------------|
| Quantity:    | 50 µg                                                               |
| Target:      | CD22 (Pinatuzumab Biosimilar)                                       |
| Reactivity:  | Human                                                               |
| Host:        | Humanized                                                           |
| Clonality:   | Monoclonal                                                          |
| Conjugate:   | This CD22 (Pinatuzumab Biosimilar) antibody is conjugated to Biotin |
| Application: | ELISA, Flow Cytometry (FACS)                                        |

### Product Details

|          |                                                     |
|----------|-----------------------------------------------------|
| Purpose: | Biotinylated Anti-CD22 (pinatuzumab biosimilar) mAb |
| Isotype: | IgG1                                                |

### Target Details

|                   |                                                                                                                                                                     |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | CD22 (Pinatuzumab Biosimilar)                                                                                                                                       |
| Alternative Name: | pinatuzumab Biosimilar ( <a href="#">CD22 (Pinatuzumab Biosimilar) Products</a> )                                                                                   |
| Target Type:      | Biosimilar                                                                                                                                                          |
| Background:       | <p>Synonyms Target: CD22, SIGLEC2, BL-CAM, SIGLEC-2, Siglec2, SIGLEC2FLJ22814</p> <p>Synonyms Antibody: ACD22-VCMAE, DCDT2980S, FCU2803, RG-7593, RO5541072-000</p> |

## Application Details

|                    |                                    |
|--------------------|------------------------------------|
| Application Notes: | ELISA 1:5000-10000, Flow Cyt 1:100 |
| Restrictions:      | For Research Use only              |

## Handling

|                  |                                                                                                                                                                                                                                                        |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                                                                                                            |
| Buffer:          | Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8 % trehalose is added as protectants before lyophilization.                                                                                                                                      |
| Storage:         | -20 °C,-80 °C                                                                                                                                                                                                                                          |
| Storage Comment: | Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).<br>Lyophilized proteins are shipped at ambient temperature. |
