

Datasheet for ABIN7607845

**anti-GFRA3 (Nadecnemab Biosimilar) antibody (Biotin)**[Go to Product page](#)

## Overview

|              |                                                                     |
|--------------|---------------------------------------------------------------------|
| Quantity:    | 50 µg                                                               |
| Target:      | GFRA3 (Nadecnemab Biosimilar)                                       |
| Reactivity:  | Human                                                               |
| Host:        | Human                                                               |
| Clonality:   | Monoclonal                                                          |
| Conjugate:   | This GFRA3 (Nadecnemab Biosimilar) antibody is conjugated to Biotin |
| Application: | ELISA, Flow Cytometry (FACS)                                        |

## Product Details

|          |                                                    |
|----------|----------------------------------------------------|
| Purpose: | Biotinylated Anti-GFRA3(nadecnemab biosimilar) mAb |
| Isotype: | IgG4                                               |

## Target Details

|                   |                                                                                  |
|-------------------|----------------------------------------------------------------------------------|
| Target:           | GFRA3 (Nadecnemab Biosimilar)                                                    |
| Alternative Name: | nadecnemab Biosimilar ( <a href="#">GFRA3 (Nadecnemab Biosimilar) Products</a> ) |
| Target Type:      | Biosimilar                                                                       |
| Background:       | Synonyms Target:GDNFR3<br>Synonyms Antibody:REGN5069                             |

## Application Details

---

Application Notes: ELISA 1:5000-10000, Flow Cyt 1:100

---

Restrictions: For Research Use only

---

## Handling

---

Format: Lyophilized

---

Buffer: Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8 % trehalose is added as protectants before lyophilization.

---

Storage: -20 °C, -80 °C

---

Storage Comment: Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).  
Lyophilized proteins are shipped at ambient temperature.
