

Datasheet for ABIN7609042

**Recombinant anti-Glycogen Synthase antibody**[Go to Product page](#)

## Overview

|                |                                                                                                             |
|----------------|-------------------------------------------------------------------------------------------------------------|
| Quantity:      | 100 µL                                                                                                      |
| Target:        | Glycogen Synthase (GYS)                                                                                     |
| Reactivity:    | Rabbit                                                                                                      |
| Host:          | Rabbit                                                                                                      |
| Antibody Type: | Recombinant Antibody                                                                                        |
| Clonality:     | Monoclonal                                                                                                  |
| Conjugate:     | This Glycogen Synthase antibody is un-conjugated                                                            |
| Application:   | Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunoprecipitation (IP), Immunofluorescence (IF) |

## Product Details

|                  |                                                                                                                                                    |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Glycogen Synthase Recombinant Monoclonal Antibody                                                                                                  |
| Clone:           | PT0576R                                                                                                                                            |
| Isotype:         | IgG, kappa                                                                                                                                         |
| Characteristics: | The Glycogen Synthase Recombinant Monoclonal Antibody (Species: Rabbit) has been validated for the following applications: WB, IHC, IF, IP, ELISA. |
| Purification:    | Protein A                                                                                                                                          |

## Target Details

|         |                         |
|---------|-------------------------|
| Target: | Glycogen Synthase (GYS) |
|---------|-------------------------|

### Target Details

|                   |                                                    |
|-------------------|----------------------------------------------------|
| Alternative Name: | Glycogen Synthase ( <a href="#">GYS Products</a> ) |
| Gene ID:          | 57104                                              |
| UniProt:          | <a href="#">P13807</a>                             |

### Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

### Handling

|                  |                              |
|------------------|------------------------------|
| Format:          | Liquid                       |
| Storage:         | -20 °C                       |
| Storage Comment: | Store at -20°C for 12 months |
| Expiry Date:     | 12 months                    |
