

#### Datasheet for ABIN7609435

# **Recombinant anti-ADAR antibody**

#### Overview

| Quantity:          | 100 μL                              |
|--------------------|-------------------------------------|
| Target:            | ADAR                                |
| Reactivity:        | Human                               |
| Host:              | Rabbit                              |
| Expression System: | HEK-293F Cells                      |
| Antibody Type:     | Recombinant Antibody                |
| Clonality:         | Monoclonal                          |
| Conjugate:         | This ADAR antibody is un-conjugated |
| Application:       | Immunohistochemistry (IHC), ELISA   |

#### **Product Details**

| Purpose:         | Adar Recombinant Antibody   |
|------------------|---|
| Immunogen:       | A Synthesized Peptide Derived From Human Adar1  |
| Clone:           | 7H12  |
| Isotype:         | IgG   |
| Characteristics: | The Adar Recombinant Antibody (Species: Human) has been validated for the following applications: ELISA, IHC. |
| Purification:    | Affinity-Chromatography   |

### **Target Details**

| Target:           | ADAR                         |
|-------------------|------------------------------|
| Alternative Name: | ADAR (ADAR Products)         |
| UniProt:          | P55265                       |
| Pathways:         | Protein targeting to Nucleus |

## Application Details

| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--|
| Restrictions:      | For Research Use only  |

## Handling

| Format:          | Liquid  |
|------------------|---|
| Concentration:   | Lot specific  |
| Buffer:          | Rabbit IgG in Phosphate Buffered Saline, pH 7.4, 150 mM NaCl, 0.02 % Sodium Azide and 50 % Glycerol |
| Storage:         | 4 °C,-20 °C   |
| Storage Comment: | 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.                |
| Expiry Date:     | 12 months   |
