## Overview

|                      |                                                                                                           |
|----------------------|-----------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                    |
| Target:              | Fetuin A (AHSG)                                                                                           |
| Binding Specificity: | AA 19-359                                                                                                 |
| Reactivity:          | Cow                                                                                                       |
| Host:                | Rabbit                                                                                                    |
| Clonality:           | Polyclonal                                                                                                |
| Conjugate:           | This Fetuin A antibody is un-conjugated                                                                   |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

|                  |                                                                                                                                                            |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Alpha-2-Heremans Schmid Glycoprotein (AHSG) Polyclonal Antibody                                                                                            |
| Sequence:        | Ile19~Ile359                                                                                                                                               |
| Characteristics: | The Alpha-2-Heremans Schmid Glycoprotein (AHSG) Polyclonal Antibody (Species: Bovine) has been validated for the following applications: WB, IHC, ICC, IP. |
| Purification:    | Antigen-specific affinity chromatography followed by Protein A affinity chromatography                                                                     |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | Fetuin A (AHSG)                        |
| Alternative Name: | AHSG ( <a href="#">AHSG Products</a> ) |

## Target Details

Gene ID: 280988

UniProt: [P12763](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 0.86 mg/mL

Buffer: 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
