## Overview

|                      |                                                                                                           |
|----------------------|-----------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                    |
| Target:              | TTPA                                                                                                      |
| Binding Specificity: | AA 88-253                                                                                                 |
| Reactivity:          | Mouse                                                                                                     |
| Host:                | Rabbit                                                                                                    |
| Clonality:           | Polyclonal                                                                                                |
| Conjugate:           | This TTPA antibody is un-conjugated                                                                       |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

|                  |                                                                                                                                                        |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Alpha-Tocopherol Transfer Protein (TTPa) Polyclonal Antibody                                                                                           |
| Sequence:        | Arg88~Glu253                                                                                                                                           |
| Characteristics: | The Alpha-Tocopherol Transfer Protein (TTPa) Polyclonal Antibody (Species: Mouse) has been validated for the following applications: WB, IHC, ICC, IP. |
| Purification:    | Antigen-specific affinity chromatography followed by Protein A affinity chromatography                                                                 |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | TTPA                                   |
| Alternative Name: | TTPa ( <a href="#">TTPA Products</a> ) |

## Target Details

Gene ID: 50500

UniProt: [Q8BWP5](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 0.37 mg/mL

Buffer: PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
