

## Datasheet for ABIN7611430 **anti-AMH antibody**

[Go to Product page](#)

### Overview

|              |                                    |
|--------------|------------------------------------|
| Quantity:    | 100 µL                             |
| Target:      | AMH                                |
| Reactivity:  | Human                              |
| Host:        | Rabbit                             |
| Clonality:   | Monoclonal                         |
| Conjugate:   | This AMH antibody is un-conjugated |
| Application: | Flow Cytometry (FACS)              |

### Product Details

|                  |                                                                                                                                               |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Anti-Anti-Mullerian Hormone (AMH) Monoclonal Antibody                                                                                         |
| Clone:           | C5                                                                                                                                            |
| Characteristics: | The Anti-Anti-Mullerian Hormone (AMH) Monoclonal Antibody (Species: Human) has been validated for the following applications: Flow cytometry. |
| Purification:    | Protein A + Protein G affinity chromatography                                                                                                 |

### Target Details

|                   |                                      |
|-------------------|--------------------------------------|
| Target:           | AMH                                  |
| Alternative Name: | AMH ( <a href="#">AMH Products</a> ) |
| Gene ID:          | 268                                  |
| UniProt:          | <a href="#">P03971</a>               |

## Target Details

Pathways: [Negative Regulation of Hormone Secretion](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 1 mg/mL

Buffer: 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
