## Overview

|                      |                                                                                                               |
|----------------------|---------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                        |
| Target:              | AMH                                                                                                           |
| Binding Specificity: | AA 118-134                                                                                                    |
| Reactivity:          | Zebrafish (Danio rerio)                                                                                       |
| Host:                | Rabbit                                                                                                        |
| Clonality:           | Polyclonal                                                                                                    |
| Conjugate:           | This AMH antibody is un-conjugated                                                                            |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), ELISA, Immunoprecipitation (IP), Immunocytochemistry (ICC) |

## Product Details

|                  |                                                                                                                                                       |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Anti-Mullerian Hormone (AMH) Polyclonal Antibody                                                                                                      |
| Sequence:        | Thr118~Arg134                                                                                                                                         |
| Characteristics: | The Anti-Mullerian Hormone (AMH) Polyclonal Antibody (Species: Zebrafish) has been validated for the following applications: WB, IHC, ICC, IP, ELISA. |
| Purification:    | Antigen-specific affinity chromatography followed by Protein A affinity chromatography                                                                |

## Target Details

|                   |                                      |
|-------------------|--------------------------------------|
| Target:           | AMH                                  |
| Alternative Name: | AMH ( <a href="#">AMH Products</a> ) |

## Target Details

|           |                                                          |
|-----------|----------------------------------------------------------|
| Gene ID:  | 493624                                                   |
| UniProt:  | <a href="#">Q6B6Q2</a>                                   |
| Pathways: | <a href="#">Negative Regulation of Hormone Secretion</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Concentration:     | 0.5 mg/mL                                                                                                         |
| Buffer:            | 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol                                                   |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C, -20 °C                                                                                                      |
| Storage Comment:   | 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.                              |
| Expiry Date:       | 12 months                                                                                                         |
