## Overview

|                      |                                                                                                           |
|----------------------|-----------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                    |
| Target:              | APOE                                                                                                      |
| Binding Specificity: | AA 19-168                                                                                                 |
| Reactivity:          | Rat                                                                                                       |
| Host:                | Rabbit                                                                                                    |
| Clonality:           | Polyclonal                                                                                                |
| Conjugate:           | This APOE antibody is un-conjugated                                                                       |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

|                  |                                                                                                                                     |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Apolipoprotein E (APOE) Polyclonal Antibody                                                                                         |
| Sequence:        | Glu19~Arg168                                                                                                                        |
| Characteristics: | The Apolipoprotein E (APOE) Polyclonal Antibody (Species: Rat) has been validated for the following applications: WB, IHC, ICC, IP. |
| Purification:    | Antigen-specific affinity chromatography followed by Protein A affinity chromatography                                              |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | APOE                                   |
| Alternative Name: | APOE ( <a href="#">APOE Products</a> ) |

## Target Details

|           |                                                                            |
|-----------|----------------------------------------------------------------------------|
| Gene ID:  | 25728                                                                      |
| UniProt:  | <a href="#">P02650</a>                                                     |
| Pathways: | <a href="#">Regulation of Cell Size</a> , <a href="#">Lipid Metabolism</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol                                                             |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C, -20 °C                                                                                                           |
| Storage Comment:   | 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.                                   |
| Expiry Date:       | 12 months                                                                                                              |
