## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µL                               |
| Target:              | BRCA2                                |
| Binding Specificity: | AA 2308-2537                         |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This BRCA2 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                |

## Product Details

|                  |                                                                                                                                                |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Breast Cancer Susceptibility Protein 2 (BRCA2) Polyclonal Antibody                                                                             |
| Sequence:        | Lys2308~His2537                                                                                                                                |
| Characteristics: | The Breast Cancer Susceptibility Protein 2 (BRCA2) Polyclonal Antibody (Species: Human) has been validated for the following applications: WB. |
| Purification:    | Antigen-specific affinity chromatography followed by Protein A affinity chromatography                                                         |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | BRCA2                                    |
| Alternative Name: | BRCA2 ( <a href="#">BRCA2 Products</a> ) |
| Gene ID:          | 675                                      |

## Target Details

|           |                                                                                                               |
|-----------|---------------------------------------------------------------------------------------------------------------|
| UniProt:  | <a href="#">P51587</a>                                                                                        |
| Pathways: | <a href="#">DNA Damage Repair</a> , <a href="#">M Phase</a> , <a href="#">Maintenance of Protein Location</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Concentration:     | 0.5 mg/mL                                                                                                         |
| Buffer:            | 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol                                                   |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C,-20 °C                                                                                                       |
| Storage Comment:   | 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.                              |
| Expiry Date:       | 12 months                                                                                                         |
