## Overview

|                      |                                                                                   |
|----------------------|-----------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                            |
| Target:              | CCDC41                                                                            |
| Binding Specificity: | AA 34-260                                                                         |
| Reactivity:          | Human                                                                             |
| Host:                | Rabbit                                                                            |
| Clonality:           | Polyclonal                                                                        |
| Conjugate:           | This CCDC41 antibody is un-conjugated                                             |
| Application:         | ELISA, Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF) |

## Product Details

|                  |                                                                                                                       |
|------------------|-----------------------------------------------------------------------------------------------------------------------|
| Purpose:         | CEP83 Polyclonal Antibody                                                                                             |
| Immunogen:       | Recombinant Human Centrosomal protein of 83 kDa protein                                                               |
| Isotype:         | IgG                                                                                                                   |
| Characteristics: | The CEP83 Polyclonal Antibody (Species: Human) has been validated for the following applications: ELISA, WB, IHC, IF. |
| Purification:    | Antigen affinity purified                                                                                             |

## Target Details

|                   |                                           |
|-------------------|-------------------------------------------|
| Target:           | CCDC41                                    |
| Alternative Name: | CEP83 ( <a href="#">CCDC41 Products</a> ) |

## Target Details

UniProt: [Q9Y592](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, 0.02 % sodium azide, 50 % glycerol, pH 7.3

Storage: 4 °C,-20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
