## Overview

|                      |                                                                                                           |
|----------------------|-----------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                    |
| Target:              | Dynaminin (DCTN2)                                                                                         |
| Binding Specificity: | AA 2-401                                                                                                  |
| Reactivity:          | Human                                                                                                     |
| Host:                | Rabbit                                                                                                    |
| Clonality:           | Polyclonal                                                                                                |
| Conjugate:           | This Dynaminin antibody is un-conjugated                                                                  |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

|                  |                                                                                                                                  |
|------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Dynactin 2 (DCTN2) Polyclonal Antibody                                                                                           |
| Sequence:        | Ala2~Lys401                                                                                                                      |
| Characteristics: | The Dynactin 2 (DCTN2) Polyclonal Antibody (Species: Human) has been validated for the following applications: WB, IHC, ICC, IP. |
| Purification:    | Protein A + Protein G affinity chromatography                                                                                    |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | Dynaminin (DCTN2)                        |
| Alternative Name: | DCTN2 ( <a href="#">DCTN2 Products</a> ) |

## Target Details

|           |                                                                                          |
|-----------|------------------------------------------------------------------------------------------|
| Gene ID:  | 10540                                                                                    |
| UniProt:  | <a href="#">Q13561</a>                                                                   |
| Pathways: | <a href="#">M Phase</a> , <a href="#">Ribonucleoprotein Complex Subunit Organization</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Concentration:     | 0.5 mg/mL                                                                                                         |
| Buffer:            | 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol                                                   |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C, -20 °C                                                                                                      |
| Storage Comment:   | 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.                              |
| Expiry Date:       | 12 months                                                                                                         |
