

Datasheet for ABIN7617973

**anti-Gastrokine 3 antibody (AA 13-166)**[Go to Product page](#)

## Overview

|                      |                                                                                                           |
|----------------------|-----------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                    |
| Target:              | Gastrokine 3 (GKN3)                                                                                       |
| Binding Specificity: | AA 13-166                                                                                                 |
| Reactivity:          | Pig                                                                                                       |
| Host:                | Rabbit                                                                                                    |
| Clonality:           | Polyclonal                                                                                                |
| Conjugate:           | This Gastrokine 3 antibody is un-conjugated                                                               |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

|                  |                                                                                                                                 |
|------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Gastrokine 3 (GKN3) Polyclonal Antibody                                                                                         |
| Sequence:        | Phe13~Leu166                                                                                                                    |
| Characteristics: | The Gastrokine 3 (GKN3) Polyclonal Antibody (Species: Pig) has been validated for the following applications: WB, IHC, ICC, IP. |
| Purification:    | Antigen-specific affinity chromatography followed by Protein A affinity chromatography                                          |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | Gastrokine 3 (GKN3)                    |
| Alternative Name: | GKN3 ( <a href="#">GKN3 Products</a> ) |

## Target Details

Gene ID: 100329220

UniProt: [D2XPP7](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 0.5 mg/mL

Buffer: PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
