## Overview

|                      |                                                                                                           |
|----------------------|-----------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                    |
| Target:              | LPHN2                                                                                                     |
| Binding Specificity: | AA 139-398                                                                                                |
| Reactivity:          | Rat                                                                                                       |
| Host:                | Rabbit                                                                                                    |
| Clonality:           | Polyclonal                                                                                                |
| Conjugate:           | This LPHN2 antibody is un-conjugated                                                                      |
| Application:         | Immunohistochemistry (IHC), Western Blotting (WB), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

|                  |                                                                                                                                   |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Latrophilin 2 (LPHN2) Polyclonal Antibody                                                                                         |
| Sequence:        | Val139~Pro398                                                                                                                     |
| Characteristics: | The Latrophilin 2 (LPHN2) Polyclonal Antibody (Species: Rat) has been validated for the following applications: WB, IHC, ICC, IP. |
| Purification:    | Antigen-specific affinity chromatography followed by Protein A affinity chromatography                                            |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | LPHN2                                    |
| Alternative Name: | LPHN2 ( <a href="#">LPHN2 Products</a> ) |

## Target Details

Gene ID: 171447

UniProt: [O88923](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 0.5 mg/mL

Buffer: 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
