## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µL                                                   |
| Target:              | LFNG                                                     |
| Binding Specificity: | AA 1-250                                                 |
| Reactivity:          | Human                                                    |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This LFNG antibody is un-conjugated                      |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|                  |                                                                                                                  |
|------------------|------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Lfng Polyclonal Antibody                                                                                         |
| Immunogen:       | Recombinant Human Beta-1,3-N-Acetylglucosaminyltransferase Lunatic Fringe Protein                                |
| Isotype:         | IgG                                                                                                              |
| Characteristics: | The Lfng Polyclonal Antibody (Species: Human) has been validated for the following applications: ELISA, WB, IHC. |
| Purification:    | Antigen Affinity Purified                                                                                        |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | LFNG                                   |
| Alternative Name: | LFNG ( <a href="#">LFNG Products</a> ) |

### Target Details

UniProt: [Q8NES3](#)

Pathways: [Notch Signaling](#)

### Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

### Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS with 0.02 % Sodium Azide, 50 % Glycerol, pH 7.3

Storage: 4 °C,-20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
