## Overview

|                      |                                                                                   |
|----------------------|-----------------------------------------------------------------------------------|
| Quantity:            | 100 µg                                                                            |
| Target:              | LRRTM4                                                                            |
| Binding Specificity: | AA 259-419                                                                        |
| Reactivity:          | Human                                                                             |
| Host:                | Rabbit                                                                            |
| Clonality:           | Polyclonal                                                                        |
| Conjugate:           | This LRRTM4 antibody is un-conjugated                                             |
| Application:         | ELISA, Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF) |

## Product Details

|                  |                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Lrrtm4 Polyclonal Antibody                                                                                             |
| Immunogen:       | Recombinant Human Leucine-Rich Repeat Transmembrane Neuronal Protein 4 Protein                                         |
| Isotype:         | IgG                                                                                                                    |
| Characteristics: | The Lrrtm4 Polyclonal Antibody (Species: Human) has been validated for the following applications: ELISA, WB, IHC, IF. |
| Purification:    | Protein G Purified                                                                                                     |
| Purity:          | >95%                                                                                                                   |

## Target Details

|         |        |
|---------|--------|
| Target: | LRRTM4 |
|---------|--------|

### Target Details

Alternative Name: LRRTM4 ([LRRTM4 Products](#))

UniProt: [Q86VH4](#)

Pathways: [Synaptic Membrane](#)

### Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

### Handling

Format: Liquid

Concentration: Lot specific

Buffer: Preservative: 0.03 % Proclin 300, Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
