## Overview

|                      |                                                       |
|----------------------|-------------------------------------------------------|
| Quantity:            | 100 µg                                                |
| Target:              | LSAMP                                                 |
| Binding Specificity: | AA 168-287                                            |
| Reactivity:          | Human                                                 |
| Host:                | Rabbit                                                |
| Clonality:           | Polyclonal                                            |
| Conjugate:           | This LSAMP antibody is un-conjugated                  |
| Application:         | Western Blotting (WB), ELISA, Immunofluorescence (IF) |

## Product Details

|                  |                                                                                                                  |
|------------------|------------------------------------------------------------------------------------------------------------------|
| Purpose:         | LSAMP Polyclonal Antibody                                                                                        |
| Immunogen:       | Recombinant Human Limbic system-associated membrane protein                                                      |
| Isotype:         | IgG                                                                                                              |
| Characteristics: | The LSAMP Polyclonal Antibody (Species: Human) has been validated for the following applications: ELISA, WB, IF. |
| Purification:    | Protein G purified                                                                                               |
| Purity:          | >95%                                                                                                             |

## Target Details

|         |       |
|---------|-------|
| Target: | LSAMP |
|---------|-------|

## Target Details

Alternative Name: LSAMP ([LSAMP Products](#))

UniProt: [Q13449](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: 0.03 % Proclin 300, 50 % glycerol, 0.01M PBS, pH 7.4

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
