## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µg                               |
| Target:              | MYLPF                                |
| Binding Specificity: | AA 2-169                             |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This MYLPF antibody is un-conjugated |
| Application:         | ELISA, Western Blotting (WB)         |

## Product Details

|                  |                                                                                                              |
|------------------|--------------------------------------------------------------------------------------------------------------|
| Purpose:         | Mylpf Polyclonal Antibody                                                                                    |
| Immunogen:       | Recombinant Human Myosin Regulatory Light Chain 2, Skeletal Muscle Isoform Protein                           |
| Isotype:         | IgG                                                                                                          |
| Characteristics: | The Mylpf Polyclonal Antibody (Species: Human) has been validated for the following applications: ELISA, WB. |
| Purification:    | Protein G Purified                                                                                           |
| Purity:          | >95%                                                                                                         |

## Target Details

|         |       |
|---------|-------|
| Target: | MYLPF |
|---------|-------|

## Target Details

|                   |                                                       |
|-------------------|-------------------------------------------------------|
| Alternative Name: | MYLPF ( <a href="#">MYLPF Products</a> )              |
| UniProt:          | <a href="#">Q96A32</a>                                |
| Pathways:         | <a href="#">Myometrial Relaxation and Contraction</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Concentration:     | Lot specific                                                                                                      |
| Buffer:            | Preservative: 0.03 % Proclin 300, Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4                                  |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C,-20 °C                                                                                                       |
| Storage Comment:   | 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.                              |
| Expiry Date:       | 12 months                                                                                                         |
