## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 100 µg                              |
| Target:              | SAA2                                |
| Binding Specificity: | AA 19-94                            |
| Reactivity:          | Human                               |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This SAA2 antibody is un-conjugated |
| Application:         | Immunohistochemistry (IHC), ELISA   |

## Product Details

|                  |                                                                                                              |
|------------------|--------------------------------------------------------------------------------------------------------------|
| Purpose:         | SAA2 Polyclonal Antibody                                                                                     |
| Immunogen:       | Recombinant Human Serum amyloid A-2 protein                                                                  |
| Isotype:         | IgG                                                                                                          |
| Characteristics: | The SAA2 Polyclonal Antibody (Species: Human) has been validated for the following applications: ELISA, IHC. |
| Purification:    | Protein G purified                                                                                           |
| Purity:          | >95%                                                                                                         |

## Target Details

|         |      |
|---------|------|
| Target: | SAA2 |
|---------|------|

## Target Details

|                   |                                              |
|-------------------|----------------------------------------------|
| Alternative Name: | SAA2 ( <a href="#">SAA2 Products</a> )       |
| UniProt:          | <a href="#">P0DJ19</a>                       |
| Pathways:         | <a href="#">Toll-Like Receptors Cascades</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Concentration:     | Lot specific                                                                                                      |
| Buffer:            | 0.03 % Proclin 300, 50 % glycerol, 0.01M PBS, pH 7.4                                                              |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C, -20 °C                                                                                                      |
| Storage Comment:   | 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.                              |
| Expiry Date:       | 12 months                                                                                                         |
