## Overview

|                      |                                                                                   |
|----------------------|-----------------------------------------------------------------------------------|
| Quantity:            | 100 µg                                                                            |
| Target:              | SLC22A17                                                                          |
| Binding Specificity: | AA 1-99                                                                           |
| Reactivity:          | Human                                                                             |
| Host:                | Rabbit                                                                            |
| Clonality:           | Polyclonal                                                                        |
| Conjugate:           | This SLC22A17 antibody is un-conjugated                                           |
| Application:         | ELISA, Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF) |

## Product Details

|                  |                                                                                                                          |
|------------------|--------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Slc22A17 Polyclonal Antibody                                                                                             |
| Immunogen:       | Recombinant Human Solute Carrier Family 22 Member 17 Protein                                                             |
| Isotype:         | IgG                                                                                                                      |
| Characteristics: | The Slc22A17 Polyclonal Antibody (Species: Human) has been validated for the following applications: ELISA, WB, IHC, IF. |
| Purification:    | Protein G Purified                                                                                                       |
| Purity:          | >95%                                                                                                                     |

## Target Details

|         |          |
|---------|----------|
| Target: | SLC22A17 |
|---------|----------|

## Target Details

Alternative Name: SLC22A17 ([SLC22A17 Products](#))

UniProt: [Q8WUG5](#)

Pathways: [Transition Metal Ion Homeostasis](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: Preservative: 0.03 % Proclin 300, Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
