## Overview

|                      |                                                                                                           |
|----------------------|-----------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                    |
| Target:              | Trefoil Factor 2 (TFF2)                                                                                   |
| Binding Specificity: | AA 27-129                                                                                                 |
| Reactivity:          | Rat                                                                                                       |
| Host:                | Mouse                                                                                                     |
| Clonality:           | Monoclonal                                                                                                |
| Conjugate:           | This Trefoil Factor 2 antibody is un-conjugated                                                           |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

|                  |                                                                                                                                     |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Trefoil Factor 2 (TFF2) Monoclonal Antibody                                                                                         |
| Sequence:        | Ser27~Tyr129                                                                                                                        |
| Clone:           | C3                                                                                                                                  |
| Characteristics: | The Trefoil Factor 2 (TFF2) Monoclonal Antibody (Species: Rat) has been validated for the following applications: WB, IHC, ICC, IP. |
| Purification:    | Protein A + Protein G affinity chromatography                                                                                       |

## Target Details

|         |                         |
|---------|-------------------------|
| Target: | Trefoil Factor 2 (TFF2) |
|---------|-------------------------|

## Target Details

Alternative Name: TFF2 ([TFF2 Products](#))

Gene ID: 116592

UniProt: [Q09030](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 1 mg/mL

Buffer: 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
