## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 100 µg                                |
| Target:              | ZNF610                                |
| Binding Specificity: | AA 1-200                              |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This ZNF610 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA          |

## Product Details

|                  |                                                                                                               |
|------------------|---------------------------------------------------------------------------------------------------------------|
| Purpose:         | ZNF610 Polyclonal Antibody                                                                                    |
| Immunogen:       | Recombinant Human Zinc finger protein 610 protein                                                             |
| Isotype:         | IgG                                                                                                           |
| Characteristics: | The ZNF610 Polyclonal Antibody (Species: Human) has been validated for the following applications: ELISA, WB. |
| Purification:    | Protein G purified                                                                                            |
| Purity:          | >95%                                                                                                          |

## Target Details

|         |        |
|---------|--------|
| Target: | ZNF610 |
|---------|--------|

### Target Details

Alternative Name: ZNF610 ([ZNF610 Products](#))

UniProt: [Q8N9Z0](#)

### Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

### Handling

Format: Liquid

Concentration: Lot specific

Buffer: 0.03 % Proclin 300, 50 % glycerol, 0.01M PBS, pH 7.4

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C

Storage Comment: 2°C to 8°C for frequent use, -20°C for 12 months. Avoid repeated freeze/thaw cycles.

Expiry Date: 12 months
