Recombinant anti-AMHR2 antibody[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	AMHR2
Reactivity:	Human
Host:	Mouse
Antibody Type:	Recombinant Antibody
Clonality:	Monoclonal
Conjugate:	This AMHR2 antibody is un-conjugated
Application:	Western Blotting (WB), Flow Cytometry (FACS), Immunohistochemistry (IHC), Immunofluorescence (IF), Immunocytochemistry (ICC), Immunoprecipitation (IP)

Product Details

Purpose:	Recombinant Antibody to Mullerian Inhibiting Substance Type II Receptor (MISR2)
Isotype:	IgG2b kappa
Specificity:	The antibody is a mouse monoclonal antibody raised against MISR2. It has been selected for its ability to recognize MISR2 in immunohistochemical staining and western blotting.
Purification:	Protein A + Protein G affinity chromatography

Target Details

Target:	AMHR2
Alternative Name:	Mullerian Inhibiting Substance Type II Receptor (AMHR2 Products)

Target Details

Background:	AMHR2, MISRII, Anti-Mullerian Hormone Receptor Type II, Anti-Muellerian hormone type-2 receptor, MIS type II receptor
-------------	-----------------------------------------------------------------------------------------------------------------------

Application Details

Application Notes:	Western blotting: 0.2-2 µg/mL, Immunohistochemistry: 5-20 µg/mL, Immunocytochemistry: 5-20 µg/mL, Flow cytometry: 5 µg/mL, Optimal working dilutions must be determined by end user.
--------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
----------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Liquid
---------	--------

Concentration:	1 mg/mL
----------------	---------

Buffer:	0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol.
---------	------------------------------------------------------------------

Preservative:	ProClin
---------------	---------

Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
--------------------	-------------------------------------------------------------------------------------------------------------------

Storage:	4 °C, -20 °C
----------	--------------

Storage Comment:	Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.
------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------
