# **Target Details** UniProt: 16L963 **Application Details** Western blotting: 0.2-2 $\mu$ g/mL,1:250-2500 Immunohistochemistry: 5-20 $\mu$ g/mL,1:25-100 Application Notes: Immunocytochemistry: 5-20 µg/mL,1:25-100 Optimal working dilutions must be determined by end user. Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. For Research Use only Restrictions: Handling
