Target Details

rarget Details	
Background:	Lysosomal Acid Phosphatase
UniProt:	P11117
Application Details	
Application Notes:	Western blotting: 0.01-2 μg/mL,Optimal working dilutions must be determined by end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
