Application Notes:	Western blotting: $0.2$ -2 $\mu$ g/mL,1:250-2500 Immunohistochemistry: $5$ -20 $\mu$ g/mL,1:25-100 Immunocytochemistry: $5$ -20 $\mu$ g/mL,1:25-100 Optimal working dilutions must be determined by end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
Restrictions:	For Research Use only
