Target Details

Target:	CASC1
Alternative Name:	CASC1 (CASC1 Products)

Target Details

Background:	LAS1, Cancer susceptibility candidate gene 1 protein, Lung adenoma susceptibility 1-like protein
UniProt:	B1H288

Application Details

Application Notes:	Western blotting: 0.01-2 µg/mL, Immunohistochemistry: 5-20 µg/mL, Immunocytochemistry: 5-20 µg/mL, Optimal working dilutions must be determined by end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
Restrictions:	For Research Use only
