Alternative Name:	MIP1g (Ccl9 Products)

Target Details

Background: CCL9, CCL10, SCYB9, CCF18, MRP2, C-C motif chemokine 9, Macrophage inflammatory protein-related protein 2, Small-inducible cytokine A9

UniProt: [P51670](#)

Application Details

Application Notes: Western blotting: 0.01-2 µg/mL, Immunohistochemistry: 5-20 µg/mL, Immunocytochemistry: 5-20 µg/mL, Optimal working dilutions must be determined by end user.

Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
