### Overview

|              |                                                                                                        |
|--------------|--------------------------------------------------------------------------------------------------------|
| Quantity:    | 100 µL                                                                                                 |
| Target:      | C4B (C4b)                                                                                              |
| Reactivity:  | Human                                                                                                  |
| Host:        | Mouse                                                                                                  |
| Clonality:   | Monoclonal                                                                                             |
| Conjugate:   | This C4B antibody is un-conjugated                                                                     |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunoprecipitation (IP) |

### Product Details

|                   |                                                                                                                                                                             |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:          | Monoclonal Antibody to Complement C4-B (C4B)                                                                                                                                |
| Immunogen:        | RPB305Hu02Recombinant Complement C4B (C4B)                                                                                                                                  |
| Clone:            | C1                                                                                                                                                                          |
| Specificity:      | The antibody is a mouse monoclonal antibody raised against C4B. It has been selected for its ability to recognize C4B in immunohistochemical staining and western blotting. |
| Cross-Reactivity: | Pig                                                                                                                                                                         |
| Purification:     | Protein A + Protein G affinity chromatography                                                                                                                               |

### Target Details

|         |           |
|---------|-----------|
| Target: | C4B (C4b) |
|---------|-----------|

## Target Details

|                   |                                                                                                                                                 |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Alternative Name: | Complement C4-B ( <a href="#">C4b Products</a> )                                                                                                |
| Background:       | CO4, CPAMD3, Basic complement C4, C3 and PZP-like alpha-2-macroglobulin domain-containing protein 3, Complement component 4B, Chido blood group |
| UniProt:          | <a href="#">P0C0L5</a>                                                                                                                          |
| Pathways:         | <a href="#">Complement System</a>                                                                                                               |

## Application Details

|                    |                                                                                                                                                                                                                                                                                                                                     |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Western blotting: 0.01-2 µg/mL, Immunohistochemistry: 5-30 µg/mL, Immunocytochemistry: 5-30 µg/mL, Optimal working dilutions must be determined by end user.                                                                                                                                                                        |
| Comment:           | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. |
| Restrictions:      | For Research Use only                                                                                                                                                                                                                                                                                                               |

## Handling

|                    |                                                                                                                                                                 |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                                          |
| Concentration:     | 1 mg/mL                                                                                                                                                         |
| Buffer:            | PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.                                                                                                     |
| Preservative:      | Sodium azide                                                                                                                                                    |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                                          |
| Storage:           | 4 °C, -20 °C                                                                                                                                                    |
| Storage Comment:   | Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles. |
