

## Datasheet for ABIN7637571 **anti-CUBN antibody**

[Go to Product page](#)

### Overview

|              |   |
|--------------|---|
| Quantity:    | 100 µL  |
| Target:      | CUBN  |
| Reactivity:  | Rat   |
| Host:        | Rabbit  |
| Clonality:   | Polyclonal  |
| Conjugate:   | This CUBN antibody is un-conjugated   |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

### Product Details

|               |  |
|---------------|--|
| Purpose:      | Polyclonal Antibody to Cubilin (CUBN)  |
| Immunogen:    | RPC411Ra02Recombinant Cubilin (CUBN)   |
| Isotype:      | IgG  |
| Specificity:  | The antibody is a rabbit polyclonal antibody raised against CUBN. It has been selected for its ability to recognize CUBN in immunohistochemical staining and western blotting. |
| Purification: | Antigen-specific affinity chromatography followed by Protein A affinity chromatography   |

### Target Details

|                   |  |
|-------------------|--|
| Target:           | CUBN                                   |
| Alternative Name: | CUBN ( <a href="#">CUBN Products</a> ) |

## Target Details

---

|             |   |
|-------------|---|
| Background: | IFCR, MGA1, gp280, Intrinsic Factor Cobalamin Receptor, 460 kDa receptor, Intestinal intrinsic factor receptor, Intrinsic factor-vitamin B12 receptor |
| UniProt:    | <a href="#">O70244</a>  |
| Pathways:   | <a href="#">Metabolism of Steroid Hormones and Vitamin D, Lipid Metabolism</a>  |

## Application Details

---

|                    |   |
|--------------------|---|
| Application Notes: | Western blotting: 0.5-2 µg/mL, Immunohistochemistry: 5-20 µg/mL, Immunocytochemistry: 5-20 µg/mL, Optimal working dilutions must be determined by end user.   |
| Comment:           | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. |
| Restrictions:      | For Research Use only   |

## Handling

---

|                    |   |
|--------------------|---|
| Format:            | Liquid  |
| Concentration:     | 500 µg/mL   |
| Buffer:            | PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.   |
| Preservative:      | Sodium azide  |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.  |
| Storage:           | 4 °C, -20 °C  |
| Storage Comment:   | Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles. |
