| _   |     |    |    |
|-----|-----|----|----|
| ( ) | V/C | rv | ٨/ |
|     |     |    |    |

| Quantity:    | 100 μL   |
|--------------|--|
| Target:      | DFFB   |
| Reactivity:  | Human  |
| Host:        | Mouse  |
| Clonality:   | Monoclonal   |
| Conjugate:   | This DFFB antibody is un-conjugated  |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunoprecipitation (IP) |

### **Product Details**

| Purpose:   | Monoclonal Antibody to Caspase Activated DNase (CAD)                                   |
|--|--|
| Specificity: The antibody is a mouse monoclonal antibody raised against CAD. It has been selected ability to recognize CAD in immunohistochemical staining and western blotting. |  |
| Purification:  | Antigen-specific affinity chromatography followed by Protein A affinity chromatography |

# Target Details

| Target:           | DFFB  |  |
|-------------------|---|--|
| Alternative Name: | Caspase Activated DNase (DFFB Products)   |  |
| Background:       | DFF-B, DFFB, CPAN, DFF40, DFF2, DNA Fragmentation Factor 40 kDa Beta Polypeptide, Caspase-activated deoxyribonuclease, Caspase-activated nuclease |  |
| UniProt:          | 076075  |  |

# **Target Details**

| Pathways:           | Apoptosis, Caspase Cascade in Apoptosis   |  |
|---------------------|---|--|
| Application Details |   |  |
| Application Notes:  | Western blotting: 0.2-2 μg/mL,1:500-5000 Immunohistochemistry: 5-20 μg/mL,1:50-200 Immunocytochemistry: 5-20 μg/mL,1:50-200 Optimal working dilutions must be determined by end user.   |  |
| Comment:            | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. |  |
| Restrictions:       | For Research Use only   |  |
| Handling            |   |  |
| Format:             | Liquid  |  |
| Concentration:      | 1 mg/mL   |  |
| Buffer:             | PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.   |  |
| Preservative:       | Sodium azide  |  |
| Precaution of Use:  | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.  |  |
| Storage:            | 4 °C,-20 °C   |  |
| Storage Comment:    | Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.   |  |
