Target Details

Alternative Name:	FM03 (FM03 Products)
Background:	Trimethylamine monooxygenase, Hepatic flavin-containing monooxygenase 3, Dimethylaniline oxidase 3
UniProt:	P31513

Application Details

Application Notes:	Western blotting: 0.5-2 µg/mL, Immunohistochemistry: 5-20 µg/mL, Immunocytochemistry: 5-20 µg/mL, Optimal working dilutions must be determined by end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
