

### Datasheet for ABIN7639395

# anti-GMFG antibody

#### Overview

Quantity:	100 μL
Target:	GMFG
Reactivity:	Mouse
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This GMFG antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunoprecipitation (IP)

#### Product Details

Target:

Alternative Name:

**GMFG** 

GMFg (GMFG Products)

Product Details	
Purpose:	Polyclonal Antibody to Glia Maturation Factor Gamma (GMFg)
Immunogen:	RPB195Mu01Recombinant Glia Maturation Factor Gamma (GMFg)
Isotype:	IgG
Specificity:	The antibody is a rabbit polyclonal antibody raised against GMFg. It has been selected for its ability to recognize GMFg in immunohistochemical staining and western blotting.
Purification:	Antigen-specific affinity chromatography followed by Protein A affinity chromatography
rumication.	Antigen-specific aminity chromatography followed by Protein A aminity chromatography
Target Details	

## **Target Details**

UniProt:	Q9ERL7
Application Details	
Application Notes:	Western blotting: $0.01-2~\mu g/m L$ ,Immunohistochemistry: $5-30~\mu g/m L$ ,Immunocytochemistry: $5-20~\mu g/m L$ ,Optimal working dilutions must be determined by end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Concentration:	0.5 mg/mL
Buffer:	PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	4 °C,-20 °C
Storage Comment:	Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.
